2021

Relevant Coursework: IT Governance, Risk & Compliance (COBIT); Business Strategy & Competitive Analysis; Corporate Finance (capital budgeting, WACC, NPV, IRR); Supply Chain Management & Retail Operations

EXPERIENCE

AI Response Evaluator

DataAnnotation.tech

2025 – Present

Remote

- Evaluate AI-generated responses for completeness, groundedness, truthfulness, and understanding to benchmark model quality
- Apply structured rubrics on the Andromeda project to score and compare model outputs across response dimensions

Delivery Driver

FedEx Ground

2025 – Present

Rosemount, MN

- Maintain digital records and exception reports for 100+ daily deliveries using route and scanning software

Phlebotomy Technician II

American Red Cross

2022 – 2025

Eau Claire, WI

- Achieved a 99.8% procedure success rate over nearly three years, ranking among top district performers
- Maintained confidential patient records in compliance with HIPAA and organizational data standards

Assistant Loan Processor, Intern

Northwoods Bank of Minnesota

2021

Park Rapids, MN

- Analyzed client income, assets, and credit history to verify underwriting compliance
- Maintained loan processing databases and prepared financial reports for lending staff

PROJECTS

Superstore Sales Analysis | *MySQL, Tableau* | [Tableau Public](#)

2026

- Queried a 9,800-order retail dataset in MySQL to surface regional and segment-level revenue trends
- Identified the West as the top market at \$721K in sales, with revenue up 57% from 2016 to 2018; visualized in Tableau

Letterboxd Analytics Dashboard | *Excel, SAP Analytics Cloud*

2026

- Defined three KPIs — Engagement Rate, Rating Index, Popularity Volume — from a ~5,000-film dataset
- Built a multi-sheet Excel workbook and SAP Analytics Cloud dashboard to track the metrics over time

Medicare Provider Payment Analysis | *Excel, Tableau*

2025

- Cleaned and structured a 100,000+ row CMS payments dataset, resolving formatting and missing-value issues
- Identified top-paying specialties and highest-volume states; published a three-chart Tableau dashboard

TECHNICAL SKILLS

Analytics & BI: SQL (MySQL, PostgreSQL), Tableau, Excel (Advanced), Python, R, SAP Analytics Cloud

Techniques: Data Cleaning & EDA, KPI Development, Data Visualization, AI/LLM Output Evaluation

Professional: Business Analysis, HIPAA Compliance, Agile

Certifications: Google Data Analytics Professional Certificate, Learning Excel: Data Analysis, Agile Foundations, Agile Software Development
